- Do you have an interest in bumblebees?
- Would you like to learn to identify them to species?
- Could you spare some time to submit your bumblebee sightings to BIS, your local environmental records centre?

If the answer to these questions is yes, then we would love to have your help. In Wales, we urgently need more data on our bumblebee populations. Skills for Bees is offering training with our Local Environmental Records Centres Wales.

Beginner Bumblebee Identification & Recording Training

The training will consist of 2 online zoom sessions, with a week in between to practice your skills in your garden or local area. By the end of the sessions we hope you will have confidence to identify some of our common bumblebees and to submit your records.

Please only register if you can attend both sessions and if you are resident in Wales, ideally in the BIS area (Powys & Brecon Beacons National Park).

- Biodiversity Information Centre for Powys & BBNP (BIS)
- Thursday 6th & Thursday 13th May – 6.30pm-8.30pm.
- To book www.bis.org.uk/diaryevent
